RACING UNDER THE STARS

We thought your jetsetter would be keen to hear about **Remote Lands'** (www.remotelands.com) unique opportunity to attend Singapore's Formula One Grand Prix. We hear the Singapore event is of special interest, as this will be the world's first Formula One Grand Prix taking place at night. All races are held on the streets of Singapore, not on track circuits. The Formula One Grand Prix Experience runs from September 25-29 and includes prime viewing locations for the races, a private tour of the pits to meet the drivers and view the F1 cars; it can also be customized with private jet charters, helicopters, VIP audiences and personal staff. Contact Catherine Heald (catherine@remotelands.com; 646-415-8092).
